PROFILE

Power BI Developer & Data Analyst with 1.9 years of hands-on experience in designing interactive Power BI dashboards, creating advanced DAX measures, and building optimized data models for business reporting. Experienced in Power Query transformations, SQL data extraction, RLS implementation, and managing automated refresh through Power BI Service. Strong expertise in Excel reporting, pivot tables, KPI tracking, and performance analysis. Proven ability to handle end-to-end ETL, data cleansing, and converting complex datasets into accurate, actionable business insights.

SKILLS

• Power BI Desktop/Service • DAX • Data Modelling • SQL (PostgreSQL/MySQL) • Advance Excel • SharePoint • Python • JIRA • Power Bi Report Builder

WORK EXPERIENCE

Panthera Infotech - Data Analyst

Dec 2025 - Present | Remote, Aurangabad, Maharashtra

- Developed and maintained Power BI dashboards and reports, implementing DAX measures, drill-throughs, bookmarks, and interactive visuals to support real estate and enterprise analytics initiatives.
- Performed data cleaning, transformation, and validation using Power Query, SQL, and Excel (pivot tables, advanced formulas), ensuring high data accuracy and reporting reliability.
- Supported data modelling efforts by assisting in the design of star and snowflake schemas and building efficient semantic models for scalable reporting solutions.
- Collaborated with senior analysts and cross-functional teams on requirement gathering, documentation, report publishing, and access management, including basic Row-Level Security (RLS).

Emotiv Corp - Data Analyst

Feb 2025 - Dec 2025 | Remote, Aurangabad, Maharashtra

- Extracted and analyzed data from multiple databases using SQL, optimizing query performance and cutting data retrieval time by 40%.
- Cleaned, structured, and validated large datasets using Excel, reducing reporting errors by 30% and improving data quality for analysis.
- Designed and published interactive Power BI dashboards to visualize KPIs and performance metrics, enhancing stakeholder decision-making speed by 35%.
- Work closely with clients and internal teams to understand business requirements and deliver tailored analytical solutions aligned with organizational goals.
- Automated repetitive data extraction and preprocessing tasks with Python scripts, saving 10+ hours of manual work each week.

Ringside Research - Junior Data Analyst

Aug 2024 - Dec 2024 | Aurangabad, Maharashtra

- Analyzed and managed datasets exceeding 50,000 records using advanced Excel functions and SQL queries, delivering actionable insights that supported business decisions.
- Designed and implemented 10+ dynamic Excel dashboards, reducing report turnaround time by 30% and improving stakeholder visibility into performance metrics.
- Utilized Python scripts to accelerate data cleaning and transformation processes, reducing manual effort and ensuring 99% data accuracy.
- Performed data validation and integrity checks using Excel formulas and SQL constraints, resulting in a 95% reduction in reporting errors.

- Leveraged Excel functions to assess, evaluate, and clean extensive datasets, reducing the turnaround time from 3 days to just 1 day, resulting in a 67% improvement. This meticulous data cleaning process effectively minimized data duplication and redundancy, laying a strong foundation for subsequent analysis.
- Implemented data cleaning procedures and schedules using Python scripts, achieving a notable 10% increase in productivity. By automating repetitive tasks, I streamlined data processing workflows, allowing for more efficient utilization of resources.
- Employed SQL for efficient data fetching and manipulation, enabling seamless integration of disparate datasets for comprehensive analysis.
- Designed and developed interactive Power BI dashboards for a client in the logistics domain, visualizing shipment performance, route efficiency, and cost trends to support operational decision-making.

PROJECTS

Sales Analytics Dashboard for Automotive Client (eBay Marketplace)-Tools: SQL, Power BI, Excel November 2025

- Designed a sales analytics dashboard for an automotive parts seller to analyze SKU-level performance and customer return trends.
- Queried and cleaned eBay transaction data using SQL to identify sales patterns and inventory bottlenecks.
- Built interactive Power BI reports visualizing KPIs such as monthly sales, return rates, and compatibility success ratios.
- Delivered insights that helped the client optimize listings and improve product compatibility mapping.
- Connected Power BI with AWS to import and refresh eBay sales data automatically for near real-time reporting.

Inventory Performance Optimization Dashboard for Automotive Client-Tools: SQL, Power BI, Excel August 2025

- Designed and implemented a Power BI dashboard to monitor inventory turnover, stock levels, and order fulfillment efficiency for an automotive parts client.
- Queried large relational datasets using SQL to track product demand, reorder frequency, and stock-out occurrences.
- Built interactive visuals highlighting fast- and slow-moving items, helping the client reduce excess inventory by 18%.
- Automated weekly data refresh schedules in Power BI to ensure updated insights for the supply chain team.

Logistics Operations Performance Dashboard-Tools: SQL, Power BI, Excel May 2024

- Developed an interactive Power BI dashboard to analyze logistics and shipment performance for a client's supply chain division.
- Utilized SQL to extract, clean, and transform large datasets containing shipment, delivery, and route information from multiple databases.
- Tracked key logistics KPIs such as on-time delivery rate, average transit time, shipment cost, and delay frequency to identify performance bottlenecks.

EDUCATION

MGM Jawaharlal Nehru Engineering College
B-Tech, Computer Science Engineering
CGPA: 8.25

Aurangabad, Maharashtra
December 2020-November 2024

PROFESSIONAL TRAINING/DEVELOPMENT

SkilloVilla Data Analytics + Python (online) | [Certificate](#)

Bangalore, Karnataka
January 2024-August 2024

CERTIFICATION

- SQL(HackerRank)- [Basic](#) | [Intermediate](#) | [Advance](#)
- Power BI (Microsoft)- [Certificate](#)
- Google Analytics - [Certificate](#)
- Quantum Data Analytics Job Simulation- [Certificate](#)
- GoldmanSachs Excel Skills Internship- [Certificate](#)
- PWC Power BI Virtual Internship - [Certificate](#)
- Python (HackerRank) - [Certificate](#)
